The mixture was manufactured or transfilled from a standard which has been gravimetrically blended with traceability through NIST to the International System of Units (SI) balance. Balances are calibrated by a certified third party with certified NIST weights and NIST test numbers. NIST Number: BU70910-041220. The uncertainty is expressed as an expanded uncertainty U=kuc with uc determined by experiment and a coverage factor k=2. The certified value +-U is presented with a level of confidence of approximately 95%.
